HIJAB KIT

NS PIRG

We recognize your headdress is important! We support you.

If you have been targeted by violence, or for any reason need an emergency replacement, please feel free to take one of these kits.

Across Canada and the USA, attacks against people of colour are on the rise. Women of colour, who cover their head or face are even more likely to be targeted.

BYSTANDER TIPS FOR PROVIDING ASSISTANCE:

- Get them to a safer space
- Ask if they would like security/police called
- Offer to stay with them until they feel safe, especially if they do wish to talk to authorities
- Let them know you support them
- Respect their choices
